Let There Be Light

KEY TAKE AWAYS:

- Content creation is the future of any business owner, and generates more leads at a fraction of a cost than traditional marketing.
- People buy because of your energy.
- Your product/service must have step 1 (mission, niche, and audience) and step 2 (four suits that map to human needs).

STEP 1: SKY, LAND, SEASONS

Broad: What are real-life emotional struggles you're dealing with?

Hint: You want to build a "core philosophical problem" out of every-day life struggles. For example, people buy certain brands to feel empowered/confident, not just for practical reasons. Then, "empowerment" becomes evergreen content.

Niche: What comes easy to you that addresses this struggle in some way?

Hint: "Easy" doesn't necessarily mean you can do it alone. It means you have ability to dig deep util you can figure it out, because it interests you.

Audience: What products/services do you love or use that are related?

Hint: Identifying existing products/services is the EASIEST way to do market-research.Pick a product/service you use, describe it in terms of the four suits below (doesn't have to be all four).

Air *Time/Energy*	**Wands** *Passion*
