SYNCHRONICITY 2025

Feng Shui

KEY TAKE AWAYS:

- At the start of the lunar new year the energies in our home change. This is described by the Lo Shu Square which is released by Chinese Astrologers every year.
- This year's chart applies from Jan. 29, 2025 to Feb. 16, 2026.
- We can balance the energies in our home by adding or removing items corresponding to elements, and astrocartography.

Tip: clear clutter in your space as the first step.

Lo Shu Square for 2025

Salt Water Jar = "Traps" negative energy. Fill a mason jar with 1/3 salt, and 2/3 with water. Bonus points: add 6 nickles/pennies.

"Negative" corners can be cured with Salt Water Jars and Astrocartography. This technique is part of PHEYDRUS proprietary training - aka not possible to find online. Keep an eye out for upcoming emails!

SYNCHRONICITY 2025

Feng Shui - Continued

KEY TAKE AWAYS:

- Synchronicity = clearing, calculating/assessing, and creating.
- There's many parallels between manifestation & Feng Shui.
  - Space clearing = symbolic of mind clearing (inner home)
    - Tools: worksheet from week 1!
  - Space design = symbolic of calling in what we want (outer home)
    - Tools: Feng Shui fundamentals (9 stars and 5 elements, below).
- Just as how you must **first clear** your space before decorating, you must reach **emotional neutrality** before "manifesting."
- Consider Feng Shui a 3D visualization process. Do NOT get caught-up in the technicals of various Feng Shui methodologies. No one knows the exact history+all the nuances - always lead with your INTENTION first.
- I like to use Flying Star Feng Shui, which uses time dimension (9 star ki)

CLEAR, CALCULATE, CREATE

Hint: Just as how there are "malefic" or "unhelpful" energies that distract your mind (news, people, negative thoughts, etc.) there are also "malefic" energies environmentally & geographically. Many astrologers & metaphysical experts calculate these energies and publish them annually/monthly/daily (aka 9 stars.) That's why it's good to re-do the Feng Shui annually.

1

CLEARING YOUR HOME CHECKLIST

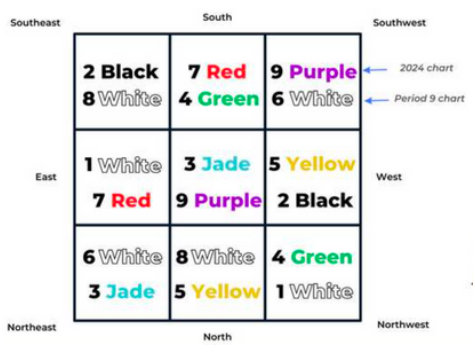
- Salt water jar
  - Typically I had salt water jars in stars 2, 3, 5, 7 because they are "malefic"
  - Fill 1/3 glass jar with salt, add 6 coins, and add water to the top.
  - Add water after evaporating. Throw away the whole jar at year-end
- Add house plants
- Air your home or get an air purifier
- Add water filter / drink clean water
- Get good natural lighting
- Reduce noise
- New mattress+furniture
- No mirrors in the bedroom
- No electronics in the bedroom
- Clean stove/kitchen tops
- Steer away from toxic cleaning products

CLEAR

- Check out this video for detailed instructions on salt water jar.
- Also continue to utilize tips from week 1 worksheet.

2

9 STARS FOR 2024 (LO SHU SQUARE)

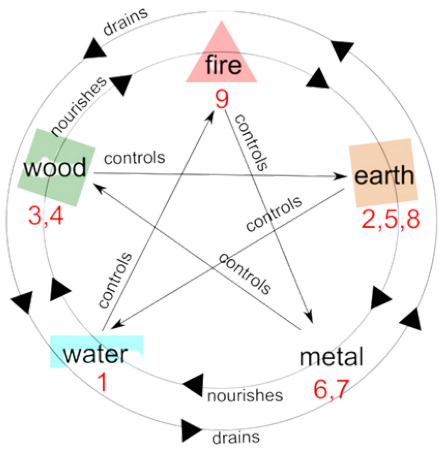


CALCULATE

- Numerous astrologers publish annual star locations. All you have to do match them with your home map.
- See next worksheet.

3

5 ELEMENTS



CREATE

- Lots of Feng Shui experts will recommend buying certain items to decorate your home. This is unnecessary. Learn the element relationships, and use what you have to "fix" your home.
- Notice that the 9 numbers have designated elements. I.e., water = 1, metal = 6,7, etc. This is the most important piece to know.

SYNCHRONICITY 2025

Feng Shui - Continued

KEY TAKE AWAYS

- Feng Shui literally means Wind & Water. It's the art of harnessing environmental energies for the betterment of human lives.
- "Fast food" or DIY fengshui generically divides up one's home, but there's several things to consider before assigning elements!
  - #1. House direction (you should have this already from pre-work)
  - #2. House period (read about the 9 periods here)
    - Some look at the year the house was built OR the year one moved in. I use the latter methodology.
    - Meaning, I use **period 8,** which started from February 5th, 2004 and will last for 20 years to February 4th, 2024.
  - #3. Annual 9 star movements (published annually by Chinese astrologers)
  - #4. Measure at the elemental relationships between #1, #2, and #3.

YOUR 9 AREAS

Fill in the blanks for your home

Write in each square what part/room of the house this is, and the corresponding LS square #

	CENTER	

Identify the following:

- Directions (N, E, S, W)
- House Period
  - Did you move in *OR* was the house built, during period 8? Then use period 8 Lo Shu Square, instead of period 9.
- 2024 Annual Star

PRO-TIP

- Because there are two stars (or three, if you add personal Star Ki number) in each corner, sometimes they can be contradictory. For example, in the above example the NE corner has malefic number "2" and benefic number "9." Your job is to add elements that amplify the 9 (fire), or at least reduce 2 (earth).
- I often refer to Feng Shui experts who give their own interpretations and recommendations. My personal favorite is Picture Healer.
