MODULE 1

Let's Reset

MODULE 1: KEY TAKE AWAYS!

- We are entering the age of Aquarius. Individuality and embracing our uniqueness are KEY in the future.
- Everything is energy. Our thoughts and feelings transmit a certain vibrational frequency.
- We are moving 3D to 4D to 5D. This is synonymous to moving from the root chakra to the heart chakra.

RADICAL SELF-INQUIRY!

[Root Chakra / Tribal / "3D"]

What values, qualities, or beliefs did your family reward you for growing up? What were the consequences of not following them?

[Solar Plexus / Individual]

What interests/hobbies/opinions did you "suppress" as a result? What's stopping you from embracing them now?

[Heart Chakra / One-ness / "4D"]

Using your response above, how could you help others? Would you make people laugh? Help them solve a problem? Feel seen?

CHAKRAS & YOU

Chakra Health = Life Health

- Chakras refer to various energy centers in our body that correspond to specific nerve systems and internal organs.
- It's easy to think of chakras as "data centers" that store certain memories and their emotions in different body parts.
- Each chakra is responsible for a "vibration" tied to an area of our lives. AND, our emotional interpretation & beliefs attract certain frequencies (people, things, situations, etc.)
- The first chakra (root) typically is where a lot of our fear of belonging or not belonging is encoded. The third chakra (solar plexus) is where our self-expression & confidence are diluted or magnified BASED on the health of the root chakra.

CHAKRA-CARE TOOLS:

- ☐ White light meditation
- ☐ Visualization
- ☐ Conscious Awareness (see below)
- ☐ Sleep, food
- ☐ Crystals
